PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Sc., expected August 2027) specializing in cloud engineering. Currently building a serverless analytics API on **AWS** with Lambda, DynamoDB, API Gateway and **Terraform**. Works in **Python**, **TypeScript**, **Docker** and **Git**, and is studying for the AWS Certified Cloud Practitioner exam. Seeking an internship or entry-level role in infrastructure, automation, and tooling.

PROJECTS

Portfolio Visitor Analytics

In progress

AWS (Lambda, DynamoDB, API Gateway, CloudWatch), Terraform, TypeScript

- Building a serverless API that records portfolio visits and returns the running count, adding one AWS service at a time to understand each before moving to the next.
- Wrote the Lambda handler in TypeScript with type-checking and automated tests, provisioned an on-demand DynamoDB table, and added structured CloudWatch logging on every request.
- Defined the full stack in Terraform, with GitHub Actions CI to type-check, test, package the deployment bundle, and validate the plan.

Personal Portfolio Website

[Live Site](#)

HTML5, CSS3, Accessibility

[GitHub Repository](#)

- Built and deployed a responsive multi-page portfolio from scratch with semantic HTML5 and custom CSS3 – no frameworks, no build step – served over HTTPS from GitHub Pages.
- Designed a token-based system for colour, typography and spacing, with an inline SVG sprite so technology logos inherit the page palette.
- Measured every colour pair against WCAG AA contrast and corrected the failures, and added skip links, semantic landmarks, focus indicators and prefers-reduced-motion support.

TECHNICAL SKILLS

Cloud and Infrastructure: AWS (Lambda, DynamoDB, API Gateway, CloudWatch), **Terraform**, **Docker**, Linux

Languages: Python, **TypeScript**, Go, JavaScript, HTML5, CSS3

Developer Tools: Git, GitHub, GitHub Actions

Certifications: AWS Certified Cloud Practitioner (in progress)

EXPERIENCE

Longleaf Hospital

Behavioral Health Associate (BHA)

Jun. 2025 – Present

Alexandria, Louisiana

- Monitor patient behavior and document status changes, incidents, and interventions accurately.
- Coordinate with clinical staff to communicate behavioral concerns and support patient safety.
- Maintain confidentiality and follow established procedures in a fast-paced healthcare environment.

The Food Bank of Central Louisiana, Inc.

AmeriCorps Member

May 2024 – Aug. 2024

Alexandria, Louisiana

EDUCATION

Louisiana State University–Alexandria

Bachelor of Science in Computer Science

Aug. 2022 – Expected Aug. 2027

Alexandria, Louisiana
